THE BONDSMEN OF THE ADMINISTRATOR ON KOS CIUSRO'S ESTATE .- On the day before yesterday, we took occasion to mention that those who were or the \$40,000 bond of Col. Bomford, as administrator of the estate of the late Gen. Kosciusko, had been te paid the several sums they had been forced to make good by the decision of the great Kosciusko's estate case, determined by the Supreme Court not long since. We have since learned that the bondsmen on the original bond given by Colonel Bothford as Kosciusko's administrator, bave not been so repaid for the money they were forced to pay in the same way. They are Messrs. Samuel Stott and James Carrico, the first named having paid \$9,000, and the other a little more than that sum. It so happened that those on the \$40,000 (second) bond took the precaution to obtain collateral security on the prop erty of Col. Bomford, and they have been paid only through the prudent management of that property by J. B. H. Smith, Col. Bemtord's administrator. The depreciation of the Value of the Colonel's facto y property (in Georgetown) and the destruction of his valuable mill by fire, together greatly learned the value of the estate which he left. Had he lived a few years longer, his well known energy and capital busmess qualities would have surely enabled in a to repay Messrs. Stott and Carrico, who are so heavy loser's by going on his original administra-

DANGERS OF THE NIGHT .- Under this head. W may notice, as pertinent to the fact, that Mr. Wm. O'Sullivan, who had his leg broken on Sixth street, the other night, will have to be removed to the In firmary, it is thought by his friends, so as to receive the necessary surgical attention to his injuries. The accident did not occur from folling in a sewer, as reported, but was caused by falling over some gas pipe, carelessly left on the side-walk, which tripped him up in the dark, and thus produced this serious result. He was walking with a friend when he tell. and we understand that Captain Birch, of the Auxmary Guard, who is always on hand, came to his asdistance, and with the friend procured a hack to take him home. Mr. O'Sullivan is a hard-working, honest mechanic, supporting himself and sister by "the sweat of his brow," and thus this accident falls heavy upon him. The Corporation will no doubt answer for the injuries done by neglect of their officers to have the laws enforced in regard to obstructions in the streets. The fact is, that with the bad light of the streets off the main avenue, the sewers left open, the obstructions on the pavements and streets, it is a wonder that more accidents do not occ r. People will have to carry lamps at night, i something is not done to remedy the evil.

ATTEMPTED SUICIDE.-A young man, named Cuthbert, whose mother keeps a restaurant on Seventh street near I, yesterday afternoon, between the hours of 4 and 5 o'clock, attempted to commit selfslaughter. He was observed to be despondent and at the time named told his mother that he would go stairs into his room. About 9% o'clock, his mother became apprehensive that all was not right, and into the structure for repairs. proceeded to his door, which being locked maide had to be forced open, and what was her horror at seeing her son weltering in his blood on the floor. Drs. Duhamer and Elliott were sent for, and quickly attended to the wound, stopping the hemorrhage, but leaving him quite weak. When they entered they found the blood gushing from the wound, and beside him lay a razor, the handle tied up wi h a handkerchief, so as to give a firmer hold, showing a deliberate intention to commit the act. The bloom also flowed from his mouth, and altogether the unfortunate man presented a most shocking spectacle. This morning he was fast sinking, and it was feared that he could not survive. The cause of the rash act is credibly said to be the breaking to of his mother's business by the recent acts of the City

THE CIRCUS.-A multitude of people filled the large tent of the double circus company last night, and enjoyed a variety of entertainments, "well done up." The introduction of ladies, M'lle Agnes, Mrs Ormond, and Mrs. Lake, in the grand entre had a fine effect, beginning the performances most suitably. The voltigeuring, the ho sewoman, and the horsemanship were thrilling acts. Walter Aymer is a trump on his bare-back norse, but really it would be hard to find such a monkey as Magilton makes. He is as active as a cat, and can do anything that a monkey can do. His feats on the pole, and the exhibition of strength in holding him aloft on the pole by Mon. La Thorn are astonishing. Bill Lake is a clown as is a clown, and, without going into particulars, we may well say this is a circus as is a circus. They perform this afternoon and evening, and then are off to other parts to furnish entertainments for the people wherever they go.

THE BROTHERS GLANTZ .- We learn that a requisition has been issued by the Governor for Christian and Charles Henry Glantz, charged with the crime of assaulting with intent to kill, Mr. E. W. Duvall. near Bladensburg. They are to be taken to Prince George county, Md., to be tried, but their counsel, E. C. Morgan, Esq., of this city, will apply to the court of that county for a change of venue to St. Mary's county. Most probably the application will be granted, but it requires an affidavit by the accused to the effect that they cannot obtain justice in the county where the crime is alleged to have been committed. Daniel Diggs. Esq., State actorney for Prince George county, wai prosecute, and probably be assisted by Col. B. P. Smith and E. C. Catrington, of this city. The brothers are in a tight place, the whole evidence that can be admitted-that of Mr Duvall-being against them, and it will require all the ingenuity of their talented counsel to get them out of the difficulty. -METROPOLITAN CHURCH.-Monday next has been

fixed for laying the corner-stone of the Metropolitan Methodist Episcopal Church in this city. The site is a most eligible one, on the corner of C and Fourand a half streets, one square rom Pennsylvania avenue, and we understand it is the intention of the builders to erect an edifice worthy of the name and the object. Bishop Simpson is to deliver the address on the occasion, and the ceremonies will be conducted by the Masonic order. Monday will be an interesting day to the good old Methodist Episcopalians of Washington. The respected Bishop James and other divines will take part in the interesting ceremonies.

CENTRE MARKET .- The meat stalls, this morning, exhibited a fine display of beef, mutton, and pork, ranging in prices from 8 to 12% cents per poundfor all of which there was a fair demand. Ducks at 37% cents and chickens at 25 cents each, found ready purchasers. Irish potatoes \$1 50 per bushel; sweet do. 50 cents per peck. Eggs 25 cents per dozen, and butter ranged from 25 to 31 cents per pound. From the foregoing, it will be seen that provisions of all kinds are somewhat lower than this day week, which we give as welcome news to housekeepers. WHAT'S A MAN WITHOUT A HAT ?- This is a per-

tinent question at all seasons, but particularly so now, when it is necessary to rig up for the winter season. Quite as pertinent is it as the question, "what's a house without a woman?" This being admitted, the next step is, "not to go over to the enemy," as John Quincy Adams said, but go over to our friend Evans, 236 Pennsylvania Avenue, and get one of his beautiful new style hats, saving a dol-lar in price by the operation. Take our advice.

THE WEATHER .- For a week past we have had regular autumnal weather. The seared leaves have nearly all fallen from the trees, the frost has nipped the flowers, the cool breezes call for winter clothing, and stoves are brought into comfortable requisition. A little rain to lay the dust would be quite acceptable, but we put it on record that such is the state of

WASHINGTON AND ALEXANDRIA RAILROAD.-We understand that James S. French, Esq., surveyor, is engaged in a preliminary examination of the route of the proposed Washington and Alexandria railroad, and will soon complete his labors. Mr. French has taken up his residence in this city, and will devote his whole time to the important duty for which he has been selected. The railroad connection between this city and Alexandria will be a link much needed between the North and South, and of vast interest to the two cities.

THE SABBATH .- To morrow we all rest from our labors, or should, and therefore it is proper to remember that we "keep holy the Sabbath Day" as a divine lesson. Sir Matthew Hall beautifully enforces the idea in these appropriate lines :

"A Sabbath well spent Brings a week of content, And health for the toils of to-morrow; But a Sabboth profaned, Whatsoe'er may be gained, Is a certain torerunner of sorrow.

SUDDEN DEATH OF A HACKMAN .- Last evening, worthy hackman named Cochran fell from his hack on the Avenue, and was taken up dead. Cause ap poplexy. His body was conveyed to his late residence on Seventh street north, from whence his funeral will take place. In the language of the inquests called by coroners he " died by the visitation of God," and in the language of the courts, " may God have mercy on his soul."

THE AMOUNT.-The amount contributed by the military to the National Washington Monument, on the 17th inst., was \$319 29, not \$313 70 as reported. There is more coming from some of the companies who contributed, and those who were not prepared to contribute on that day.

A New Liquor Law .- From what we can learn it is probable that a new liquor law will be introduced by the Committee on Police on Monday next. somewhat modifying the recent hasty acts of their honors. The character of the new proposition is only known to the committee.

Neal, drung and disorderly, workhouse 30 days; Zaehariah Swann, breach of the peace, held to security; Patrick Cunningham, same offence, held to security; E. S. Johnson, free negro, larceny, sent to jail for Court.

INDIANA. - Miller's (dem.) majority for Congress, in the First district of Indiana, is 958. The returns are complete. English's (Dem. majority, in the Second district, is 621. The Indiana Sentinel (Dem.) makes the new Legislature to stand as follows: Senate, 26 Democrats to 23 Whigs, and one to be heard from House, 41 Democrats to 47 Whigs, and two to hear frem.

A Madrid correspondent describing the interest the poorer classes take in a bull fight. says that a week er two ago a man actually cut off his wife's hair while she was asleep, and sold it, in order to raise money for the purpose of seeing the fight.

Snow .- The ground was covered with snow to the depth of two inches in Montreal on last Monday morning. The hills of Vermont were likewise white with snow on the same day.

THE MAMMOTE BALANCE DOCK AT WILLIAMS. BURGH-Preparations for a Launch.-Yesterday afternoon a large number of workmen were putting down the ways for the launching of the monstrous balance dock at Williamsburgh. The dock was commenced about fifteen months ago, under the direction of Mr. Wm. H. Webb, the New York ship builder I is 325 feet in length, 100 feet in breadth, and 39 feet in depth. The material of which it is constructed consists of white oak and white and yellow pine. Messrs. Mott & Avres. of the Chelsea Iron Works, have made the up and take a little sleep, and accordingly went up machinery for the operation of the dock. The largest vessel afloat, it is said, can be taken

The dock is estimated to be worth one hundred and ninety thousand dollars. It is not yet decided where the dock will be station permanently. The company are endeavored to get it ready for launching on Saturday next. The ways upon which she will slide into the East river, at the entrance of Bushwick creek, are one hundred and seventy-two feet in length. New York Evening Post, of the 19th.

GEORGETOWN CORRESPONDENCE.

GEORGETOWN, October 21, 1854. The ladies of Union Female Benevolent Society have already commenced their winter's labors of mercy and charity. Too much praise cannot be awarded the excellent females who compose this as sociation for their untiring zeal, and self-sacrificing industry, in the good work in which they are engaged. Scores and nundreds of destitute females and children, are regularly among the warmed, fed and clothed, mainly through their efforts; and eternity alone can reveal the vast amount of good they have done, and are still doing. Our Gas Company are considerably enlarging their

operations, by extending their pipes upon our heights, for the purpose of furnishing the dwellers thereon with more light. We hope the next move will be one towards lighting some of the more public, i not

all, of our streets at night. While reading the report of the military parade and review, which came off in your city, as contained in the Star of yesterday and the day before. we were led to wonder what had become of all the military spirit which had characterised the men of our city a few years ago, when we had two fine companies of infantry and one of horse. The idea of a city of nine thousand inhabitants, and not a soldier in it, sounds rather ridiculous, and we confess we feel rather ashamed to make the fact known.

Nearly all the lots which have been laid out in Oak Hill cemetery have been disposed of, and still there is a demand for more. Under the skillful management of Capt. Delaroche, the engineer, and Mr. Blundon, the porter, this sacred repository of the dead continues to be improved and beautified. During the summer the porter's lodge was consider-

SALTIMORE CORRESPONDENCE

BALTIMORE, Oct. 20, 1854. The Mayor elect, Mr. Hinks, will take his official seat, on the second Monday in November. It promises not to be one of damask or velvet cushions. He is already beset on every side by scores of applicants for office. I am told he has been obliged to so regulate his hours, that an audience may be had with all to the best advantage. He has found no time since the election to give the slightest attention to breadstuffs, except in the way of eating.

The City Collectorship seems to be the chief bone of contention. No appointment to that station is yet fixed upon. Ex-Mayor Jerome is prominently named-also, Major McPhail, and some others John G. Wilmot is certain to be provided for, and it the laborer be worthy of his hire, he certainly merits some of the loaves and fishes. The community, however, if report be true, has fallen into an error in reference to this distinguished personage. To him h s been accredited the honor of first introduc ing Know Nothingism into Baitimore and Maryland. This is adjudged a mistake. That honor, according to rumor, belongs to no less an individual than M Codet, a well know a professor of dancing, resident of Baltimore. He got the cue more than a year ago, when on a visit to New York, from its founder, and coming back, inoculated his friends with the infection. You see, therefore, from small aches mighty toe-corns grow. The thing took root, and by a refructifying process, has grown to gigantic dime sions. The locusts of Egypt came in a similar manner; and after spreading deva-tation in their course. passed off. Who would have supposed that the author of Know-Nothingism would have risen into greatness in so short a time-that he would live to see the day the weather in October of the year of our Lord, that this mighty republic would call him the father of the American party; or that Mr. Codet would have the distinguished honor of wielding the State of Maryland! Strange things do really happen; and if these rumors be true, they are passing strange. It is said, but with how much truth I cannot vouch, that the few caucus nominations already

made by the new city councils elect have given extreme offence, and alienated scores from the m. stic organization. There were about one hundred applicants for the clerkships to the first and second oranches, a post worth \$6 per day and small pickings Those fortunate in securing these places are printers—Mr. Pollock, from the Sun office, Mr. Huzza, of the Clipper office, and the third from t e book office of Mr. Lucas. They are all industrious, worthy gentlemen, but others hold themselves to b equally entitled to consideration. One of the old door keepers who is to be supplanted, is an old soldier, and served his country at North Point. A clean sweep is to be made, even down to "dog pelter." Yes, Billy Jones's occupation is gonehis rag bag will be hung up to dry. An old Whig may be imagined as saying, in tones of anger, " keew they would show favor to that fellow because he is a Democrat." And, on the other hand—"1" resign; I'll leave the party, and blow the whole thing—I'm blowed if I don't!" You may look out

for the most complicated snarl in less than six months that was ever heard tell of within the bounds of Baltimore. Tuere are two aspirants for Governor, Congress and other high posts of honor. Already the places of Hon. Henry May and Hon. Joshua Vansant are appropriated in the mind's eye of several, and the longest pole must knock down the persimmons. I shall, in due time, give you some particulars upon these particulars. A. J. B., the short 'un, Speciacle

Jasper, became sick while a stranger in this city, and in consequence of his destitute condition was sent to the Hospital, where he was found by a committee of this Lodge, suffering from a disease termed Scrofula or King's Evil, and in so low a state as to be pronounced by the physicians incurable. On recommendation ounced by the physicians incurable. On recommendation nounced by the physicians incurable. On recommendation of a brother he was induced to try your medicine, and in three weeks was declared cured and left the city for New York; and in our opinion his restoration to health was caused solely by the use of your specific.

IT SHOULD be universally known-for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhosa, cholera morbus iver complaint, and many other diseases enumerated in the liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that, dyspepties; think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once—don't delay a day—to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, curative, and invigorant, stands alone and unapproached. We have tried the Bitters; and know that they are excellent for the diseases succified above.
